# GESTURE RECOGNITION

The new standard for epidemic prevention

No touch no contact. Just lift  
hand up/down to go up stair or down stair.

# Operation Guide

**▲ Up stairs** Lift up your hand in front 5-15 cm of the sensor, you could call lift going up.

**▼ Down stairs** Lift down your hand in front 5-15 cm of the sensor, you could call lift going down.

※Workable with gloves on.
